

SYMPHONY®

ria

Ria offers an elegant, understated design while providing solutions in harmony with your multi-purpose, training, classroom, meeting and dining space.

conduct

Ria nesting legs have the option to be angled to allow in-line nesting. The flip release handle is mounted on the underside of the surface. This simple squeeze mechanism allows one individual to release both mechanisms simultaneously and flip the table up or down. Ria nesting tables are flexible, mobile plus support your technology.

casters

ria glide extender

ria standard glide

Available in T, C, X, Y, and double Y type bases with adjustable glides or 2 inch black locking casters support 18"-72" round and 18"-60" deep tops. Fixed, flip, folding, and nesting versions. Standard height, bar height, lounge height, custom height and spring clip adjustable height options available. Symphony offers table locks, carts, plus a variety of power/data and wire management solutions to complement the Ria collection.
